

Install the Session Allocation Manager (SAM)

Download SAM Installer

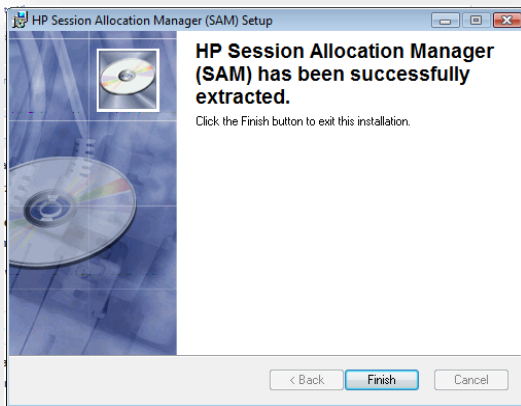

1. To download the SAM click on SAM (Windows) to download the installer executable.
2. Right-click on the Installation executable “scw32-EN-2.3.0.msi” and select “Run as Administrator” to start the installation.

3. Click “Run” at the Windows Security Warning window.
4. Click “Continue” on the Windows security window when it pops up.
5. Click “Next” at the HP Session Allocation Manager (SAM) Setup Welcome screen “Next”

6. Select the default options during installation.
7. Once the HP Session Allocation Manager is complete. Click “Finish” to close window.

Connecting to CECS Systems

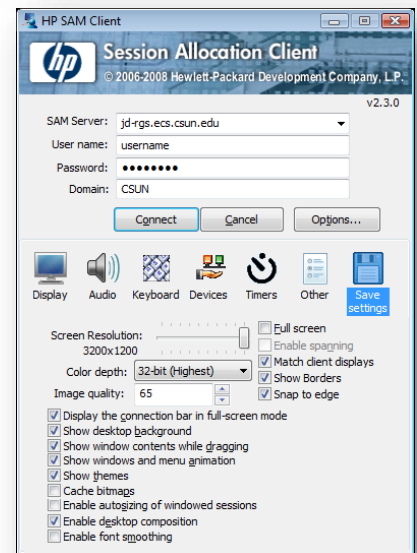

1. Startup the HP Session Allocation Client from the Windows Start Menu

2. The initial HP SAM Client window will be blank. Follow the options below to configure SAM Client.

3. Click the “Options ...” button to maximize the options section.

4. Configuring the HP SAM Client to connect to CSUN CECS lab systems. The below options must be set.

- SAM Server: jd-rgs.ecs.csun.edu
- Username: CSUN Username (ie abc12345)
- Password: CSUN Password
- Uncheck “Full Screen”
- Check “Match Client Display”
- Set “Color Depth” to 32-bits
- Set “Screen Resolution to maximum Possible Value

5. Save the newly configured Session Allocation Client settings by clicking on the “Save settings” icon.
6. The Windows “Save As” browser window will appear. Name the file “CECS.sam” then save the settings file onto your Desktop.

TIP: Double click on the newly saved HP Session Allocation Manager setting file saved on your Desktop to connect to a CECS Lab system at any time.
