## **Course checklist for MS Chemistry candidates**

### **NOTES:**

- Your DPR should always be the final arbiter of coursework required and completed, but this might be a useful quick-reference sheet
- Do not include any courses that do not count toward your degree (for example, a 300-level course taken for proficiency purposes should not be included here).
- Any courses from outside the department (up to 6 units) taken as electives **MUST** be pre-approved by your Thesis Advisor, and course substitution paperwork must be completed at the end of the semester (or else the course does not count for your degree).

### **Electives (18 – 23 units)**

Must include at least one lab and cannot include >9 units of 400-level classes

<b>Course</b>	<b>Semester taken</b>	<b>Units</b>	<b>Grade</b>

### **Required courses (7 – 12 units)**

<b>Course</b>	<b>Semester taken</b>	<b>Units</b>	<b>Grade</b>
CHEM 500		1	
CHEM 691		1	
CHEM 692		1	
CHEM 696			
CHEM 698
