**STAFF & FACULTY WORKSHOP OPPORTUNITY**

**Workplace Violence/Surviving an Active Shooter Incident – PART I**
**Presented by:** Anne Glavin, Chief of Police & Kristina de la Vega, Associate Vice President of Human Resources

With the rise in occurrence and increased publicity of shootings on campuses and elsewhere around the country, at CSUN we have seen an increase in the number of faculty, staff and students who have raised concerns about their own safety and/or the safety of others.

Part I of this two-part workshop is designed to familiarize staff with the range of university resources available and how to activate those resources when responding to a variety of behaviors that may cause concern within your department. A case study format will be utilized to provide discussion about the key elements necessary when dealing with distressing, disruptive and threatening behaviors.

**Workplace Violence/Surviving an Active Shooter Incident – PART II**
**Presented by:** Anne Glavin, Chief of Police

Part II of the workshop will deal with the worst case scenario of an active shooter situation on campus. A dynamic video will be shown and discussion will follow to explain the survival mindset necessary in that situation as well as realistic strategies for dealing with it. There will also be an explanation of what to expect regarding emergency response by CSUN Police.

**Managing During Critical Incidents on Campus: Leadership Issues for "Routine Emergencies" and Actual Crisis Events**

**Presented By:** Anne Glavin, Chief of Police
**Date:** November 8, 2018
**Time:** 9:30 to 11:00 a.m.

**Location:** Department of Police Services Training Room, 2nd Floor

In this session, supervisors and MPPs will better understand the structure and organization of the University framework (who does what and when) in response to routine and critical incident emergencies on campus. Learn about providing advice to help staff remain calm and understand the emergency response process, information flow and actions to take (or not) in a given situation. We will also discuss expectations for management personnel and how to prepare for emergencies ahead of time on a departmental level.
