

Job Description: Environmental Health & Safety Specialist

This position is part of the Environmental Health & Safety (EH&S) department and supports the plating operations. Although those with experience would be preferred, we will train the right candidate. The background and/or experience with chemistry are a plus. The job will entail all aspects of EH&S under the supervision of a professional team. You will be “boots on the ground” at a plating facility. You will have the support of our entire team. It is an ideal learning opportunity and experience for someone who is looking to go into this field. The items listed under responsibilities are all aspects of the job, but this candidate will only work on what is at their level and move up from there.

Responsibilities:

- Environmental
- On-site waste treatment and discharge (Sanitation District)
- SMARTS (stormwater)
- Permit By Rule
- Certified Unified Program Agencies (Fire department)
- California Environmental Reporting System (CERS)
- Hazardous Waste Source Reduction and Management Review (SB14)
- Form R
- Biennial Reports
- Floor Management Plan
- AQMD permits and reports
- Health & Safety
- Air Sampling
- Noise Level Testing
- Job Hazard Analysis
- Training
- Injury & Illness Prevention Program
- Hazard Communication / Prop 65
- Emergency Action Plan
- Fire Prevention
- Respiratory Protection
- Hearing Conservation
- Hazardous Energy Control (Lock out/Tag out)
- HAZWOPER
- Industrial Truck Safety (Forklift)
- Confined Space
- Exposure control Program
- Airborne Contaminate Control Program
- Chemical Hygiene
- Process Safety Management
- Ergonomics Program
- Contingency Plan **Requirements:**
- B.S. in Environmental and Occupational Health Science or equivalent.
- Experience working with chemical
