Bloomberg Market Concepts (BMC) is a 10-hour, self-paced e-learning course that provides an interactive introduction to the financial markets. BMC consists of 5 modules—Economic Indicators, Currencies, Fixed Income, Equities, and Getting Started on the Terminal—woven together from Bloomberg data, news, analytics and television.

Lab Assistants will be available to guide you through the basic commands required to navigate the system.

There are only 8 Bloomberg Terminals available. **Walk-ins only.** Appointments are not available. First come, first serve.

**Students must bring their own headphones/earphones.**

Last two weeks (Monday, Nov. 25th to Friday, Dec. 6th) are only open to students continuing the BMC certification.
