- The faculty have the responsibility to guarantee that **work is done by the student** who is to receive credit for its completion.
- Examinations should be appropriately proctored or monitored to **prevent students from copying or exchanging information**; and that proper credit is given for ideas and information taken from other various sources for each assignment/project handed in.
- Academic dishonesty cases that occur in the classroom shall be reported by faculty members.
- The ME Department does not tolerate **any form of academic dishonesty**.

- Registration holds placed ~7th week.
- Print a copy of your DPR to assess progress.
- Attend one of the Group Advisement sessions.
- Plan at least one semester (2 preferable) using My Academic Planner (MAP).
- Choose an appropriate set of classes based on the requirements and the prerequisites.
- Pay close attention to the [60 hr. rule](#). Assess your work hours and any other time limitations fairly. Then, decide on the number of units.
