- 3) Evaluates applicants and determines College awards and scholarship recipients, using objective and other evaluation criteria.
- 4) Coordinates with department chairs, the director of the Business Honors Program, the Dean's Office, and Associate Dean's Office.

- 5) During the last regularly scheduled College faculty meeting of the academic year, the Committee briefly summarizes the Committee's activities during that year and reports the names of College awards and scholarship recipients.

- c. **Criteria for Selection of Scholarship Applicants** - The Committee is responsible for complying with the standards and criteria established for scholarship awards and endowments.

B. Leaders in Alliance (LA)

1. **Composition** - The Leaders in Alliance (LA) organization is composed of the student senator(s) for the College and any designated officers of the student clubs and associations in the College.
2. **Responsibility** - The organization advises on student-faculty relations and engages in various activities designed to bring students, faculty, and alumni closer together and to advance career and industry networking opportunities.

The specific purposes of the Advisory Board are (a) to serve as a "sounding board" for present and proposed programs and activities of the College; (b) to identify opportunities for business students to enrich their education through internships, mentorships, and other learning-practical work experiences; (c) to help bring business executives into the classrooms and other close contact with students and faculty in both formal and informal settings; (d) to help build important ties and connections between the College and the business community; (e) to assist the dean in the solicitation, cultivation, and stewardship of external support; (f) to assist in the ongoing strategic planning process of the College.

D. Committee Reports

Reports of all standing and special College committees must be approved by a majority vote at a properly called meeting of the committee.

If it is impossible or impractical to bring the members of a committee together for a meeting, the report of the committee can contain only what

has been agreed to in writing by every one of its members after separate consultation by the committee chairman or designated reporting member of the committee.

An emergency presentation of facts or recommendations made merely upon separate consultation with every member of the committee must be described thus to the parent body, and not as an official report of the committee.

## VI. COLLEGE PERSONNEL POLICIES

### A. Introduction

1. This section of the handbook describes the rules used by the David Nazarian College of Business and Economics governing hiring of new faculty, retention of probationary faculty, promotion of faculty, tenure, and ongoing standards for all faculty.
2. The relationship between the College Personnel Policies and other sets of rules is laid out below.
  - a. All procedures in recruiting faculty and in recommending their retention, tenure, and promotion are governed by the provisions of Section 600 (California State University, Northridge Administrative Manual), and the Agreement Between the Board of Trustees of the CSU and the California Faculty Association: Unit 3 - Faculty (the Collective Bargaining Agreement).

The current Faculty Collective Bargaining Agreement provides the sole basis for the dismissal, demotion or suspension of tenured faculty. None of the provisions of the Faculty Handbook shall be construed as a basis for, or used for the purposes of, dismissal, demotion, or suspension of tenured faculty.

- b. Consistent with the rules mentioned in 2.a., the College Personnel Policies described in this handbook provide additional rules for hiring of new faculty, retention of probationary faculty, tenure, promotion, and ongoing standards for all faculty.
- c. Consistent with the rules mentioned in 2.a. and 2.b., the departments of the David Nazarian College of Business and Economics may define additional rules for hiring, retention, tenure, and promotion. Such additional rules must be approved as specified in Section 600.
- d. Recommendations for retention, tenure, and promotion shall be based solely on merit. Performance shall be evaluated in the areas of teaching, contributions to the field of study, and contributions to the University and community.

### B. General Policies

1. Objectives
  - a. Teaching is our primary mission: therefore, the capacity for teaching excellence shall be of primary importance in hiring and recommendations for retention, tenure, and promotion.

- b. Continuing scholarship is essential to excellence in teaching; therefore, faculty are expected to continue to contribute to their field of study throughout their career.
2. Hiring New Faculty Members
- a. Section 600 and the Collective Bargaining Agreement govern all recruitment and selection procedures.
  - b. The College will hire candidates for probationary positions who meet the Scholarly Academic qualification as defined in Section VII.C of this Handbook and who are expected to qualify for tenure by the end of their probationary period.
  - c. Requests for advanced rank for new probationary hires will include recommendations from the following: Department Personnel Committee, Department Chair, College Personnel Committee, and College Dean.
  - d. A Department Committee screens applicants for probationary positions in the Department before submitting the recommendations to the Dean.
  - e. In making recommendations, the Department will consider the following factors:
    - 1) How the candidate's qualifications support the mission of the College and the University;
    - 2) Specific needs of the College's degree programs and majors;
  - f. Recruitment processes shall be consistent with the policies of the Office of Equity and Diversity. Specific guidelines can be found in Guide for Recruiting Faculty and Procedures for the Recruitment and Appointment of Faculty, issued by the Office of Faculty Affairs.
3. Retention, Tenure, and Promotion
- a. General Concerns
    - 1) All retention and tenure recommendation procedures are governed by Section 600 and the Collective Bargaining Agreement.

All procedures regarding promotion and evaluation of probationary and tenured faculty are governed by Section 600 and the Collective Bargaining Agreement.

- 2) The requirement of a doctorate degree is met when the Dean of the David Nazarian College of Business and Economics receives notice from the Registrar at the awarding institution of the completion of all the requirements for the degree and of the date on which the degree will be awarded.
- 3) A probationary faculty member must submit his or her Professional Information File to the Dean's office every year (except the first). Candidates for promotion must submit their Professional Information Files to the Dean's office in order to be considered. (Both Departmental and College level agencies have access to the file in the Dean's office at appropriate times.) Failure to submit a Professional Information File shall constitute a voluntary withdrawal from promotion consideration (see Section 600), but a probationary faculty member may not withdraw from consideration for retention or tenure (see Section 600).

b. Retention of Probationary Faculty

Department Chairs and Department Personnel Committees are urged to express any concerns they have regarding a faculty member's performance, together with an opinion as to whether the faculty member is "on track" or "off track" for tenure, when writing letters for an additional probationary year.

c. Tenure and/or Promotion

Tenure or promotion requires a basis for expecting continuing high quality performance by the individual in teaching effectiveness, contributions to the field of study, and contributions to the University and community. The review period for each of these three factors is (a) since the initial appointment and beyond the dissertation for tenure and for promotion to Associate Professor, and (b) since promotion to or appointment as Associate Professor, for promotion to Professor.

Tenure or promotion requires a demonstration of teaching effectiveness throughout the review period. In totality, the individual's evidence of teaching effectiveness must be of such quality as to indicate a strong commitment to students' learning.

Tenure or promotion requires a demonstration of substantial service to the University throughout the review period. Opportunities for service are available at department, college, and university levels but this does not imply that service must be at all three levels. In totality, the service activities of the

individual must be of such scope as to indicate a high degree of dedication, initiative, and commitment to the Department, College, University, and/or community.

In order to be recommended for promotion or tenure, a faculty member must be a Scholarly Academic as defined in Section VIII and must also meet the requirements outlined below. The Scholarly Academic qualification is necessary for tenure or promotion, but is not sufficient. Tenure or promotion to the next professional rank requires a record of continual intellectual contributions during the review period, including journal articles and/or books. In totality, the record must demonstrate such high quality and quantity as to indicate promise of strong future intellectual contributions to the field of study by the faculty member.

d. Accelerated Promotion

Probationary faculty members shall not normally be promoted prior to their sixth probationary year (including service credit). However, promotion to Associate Professor may be recommended earlier if the faculty member has fulfilled or exceeded all of the criteria contained in Section 600 for advancement to the next rank and demonstrated significant accomplishments in the areas of research and teaching.

In order to demonstrate evidence of significant accomplishments, the faculty member shall:

- 1) possess a record of scholarly activities substantially superior to the usual requirement for promotion during the normal promotion period; and
- 2) exhibit superior teaching effectiveness and direct instructional contributions both inside and outside the classroom of such quality as to indicate a strong commitment to student learning. Teaching effectiveness must be demonstrated to establish a consistent pattern or trend.

Similarly, faculty members being considered for accelerated promotion from Associate Professor to Professor will be expected to satisfy the same criteria described above, plus demonstrate superior service.

A request for accelerated promotion shall be initiated by the faculty member.

4. Ongoing Standards for Faculty Members

a. Expected Performance in Teaching

All faculty teaching classes (including those participating in the Faculty Early Retirement Program) are expected to be current in their instructional field, effective in the creation and delivery of instruction, and accessible to students consistent with College and Department standards. In addition, all faculty are expected to use feedback from College assessments to improve their teaching. In accordance with the Section 600 (CSUN Administrative Manual), teaching effectiveness shall be evaluated based on procedures established by the Department, including classroom visitations and student evaluations.

b. Expected Performance in Field of Study

All faculty (including those on FERP or reduced-time bases) are expected to be Scholarly Academics, as defined in Section VII.

c. Expected Performance in Contributions to the University and Community

All tenured and probationary faculty are expected to provide continuing service on Department, College, and University committees plus community-related activities. The pattern and scope shall be consistent with the faculty member's rank and assignment.

C. Other Policies

1. Student Evaluation of Teaching

Students evaluate the performance of the faculty teaching. The evaluation of teaching performance is confidential and is processed in accordance with Section C2 below. Faculty receive summaries of student evaluations of their teaching.

a. Scheduling

- 1) Approved questionnaires for Student Evaluation of Teaching shall, at a minimum, be administered for all faculty during the spring semester of each academic year.
- 2) All probationary faculty members shall have student evaluations administered in at least two classes in each of their first two semesters of service.
- 3) Such evaluation will also be conducted for second year probationary faculty as late in the Fall semester as is consistent with providing the evaluation results to the Department Chair and the Department Personnel Committee in time for their deliberations and deadlines

for forwarding recommendations to the College level.

- 4) Any faculty member may elect to have evaluations done in the Fall semester.

b. Processing

- 1) Computer-produced summaries of the questionnaire shall be prepared and distributed as follows:

One copy to the faculty member, one copy to the Department Chair, and one copy to the faculty member's Personnel Action File, and, for graduate level courses, one copy to the Graduate Director (who shares with the Department Chairs the responsibility for staffing graduate courses in this College), and one copy to the faculty member's Personnel Action File.

- 2) The Department Chair's copy of the evaluation summaries shall be available to the Department Personnel Committee for those faculty who are subject to personnel action.
- 3) The teaching evaluation summaries shall be retained for a minimum of five years. The source documents for the student evaluation of faculty shall be retained for one year from the date of administration of the questionnaires.
- 4) Each faculty member shall be notified when the copies of the computer-produced summaries and free-form responses are available.

## VII. FACULTY RESPONSIBILITIES AND DUTIES

### A. GENERAL POLICIES

The College faculty are governed by University policies regarding responsibilities and duties as specified in Section 600 (California State University, Northridge Administrative Manual).

### B. ADDITIONAL COLLEGE POLICIES

#### 1. Classroom Autonomy

The faculty member as instructor has complete authority in the classroom:

- a. No classroom may be visited by unauthorized persons without previous consent of the instructor.
- b. The use of any recording devices in a classroom is subject to

the consent of the instructor.

- c. No representative of the media may visit a classroom to take photographs or notes without first obtaining consent of the instructor and notifying the Office of Public Relations.

## 2. Class Meetings

- a. The faculty member who is unable to meet a class shall notify the Department Chair.
- b. Classes shall not be canceled without prior approval of the Department Chair, except in cases where the need to cancel the class cannot be determined in advance.
- c. In any semester, the instructor planning to miss more than one class meeting to attend professional meetings must obtain approval of the Dean.
- d. A faculty member who has arranged for a substitute instructor shall notify the Dean or the Department Chair by memo before the substitution occurs.
- e. Before relocating a class, the faculty member shall notify the Department Chair.

## 3. Curriculum

The curriculum is the responsibility of the faculty, and is the primary means for carrying out the mission of the College and its degree programs. Modifications in the curriculum may be suggested by the results of assessment, the establishment of new, or modified, degree programs, changes in accreditation requirements, or by changes in the disciplines.

Any faculty member, committee, or department may propose curriculum changes. Such proposed changes must be approved by the relevant department faculty before consideration by the Curriculum Management and Policy Committee (undergraduate curriculum) or Graduate Committee (graduate curriculum). The Curriculum Management and Policy Committee or Graduate Committee will review the proposals and report them to the College faculty together with the Committee's recommendations.

All curriculum changes, after approval by the College faculty, must be approved by the University's Educational Policies Committee (undergraduate curriculum) or Graduate Studies Committee (graduate curriculum), and by the Provost, before they can become effective.

## 4. Exams and Term Papers

All unreturned exams, term papers, and projects will be retained by

the faculty member for a period of one year.

5. Final Examinations

- a. Only sound academic reasons warrant the scheduling of a final course examination that deviates from the time published in the Schedule of Classes.
- b. The approval of the Department Chair and of the Dean of the College must be obtained prior to registration and preregistration (if any) in order to change the published date and time of a final course examination.
- c. Students shall be notified of the scheduling change during preregistration (if any) and registration.
- d. If any student enrolling in the course has a conflict with the adjusted schedule, the instructor shall conduct a special final examination.

6. Office Hours

- a. Faculty members must schedule three office hours distributed over at least two separate time periods and shall also be available for consultation by appointment.
- b. Faculty are to strive to schedule office hours at times which are most convenient for the majority of students enrolled in their classes.
- c. Office hour listings for all faculty members must carry the notation--"And by Appointment".

C. FACULTY QUALIFICATIONS

1. Objectives

The first purpose of this policy is to promote a community of scholars in which all faculty members are committed to life-long learning, excellence is expected and achieved, and mutual support and encouragement for continual improvement is part of the college culture. The second purpose is to help ensure that faculty members meet the faculty qualification requirements as given in this document.

The College expects all faculty to maintain Scholarly Academic qualification throughout their careers. Qualification requires a combination of original academic preparation plus maintenance of currency in an individual faculty member's area of teaching.

2. Academic Qualification

The faculty, individually and collectively, must sustain intellectual capital in their fields of teaching, demonstrating currency and relevancy of intellectual capital to support the Nazarian College mission, expected outcomes, and strategies including teaching, scholarship, and other mission components. The faculty will demonstrate adherence to this standard through the four classifications of faculty qualification and engagement and their definition given below. Guidelines for maintaining faculty qualifications follow.

		Sustained Qualifying Activities	
		Research/ Publication	Applied/ Practice
Initial Qualification: Terminal Degree or Professional Experience	Substantial Professional Experience + Master's or higher	Scholarly Practitioner (SP)	Instructional Practitioner (IP)
	Doctoral Degree	Scholarly Academic (SA)	Practice Academic (PA)

Scholarly Academics (SA) sustain currency and relevance through sustained engagement in research/scholarship and related activities. SA status is granted to faculty members who earned their doctorate within the last five years prior to the review date. SA status is also granted to faculty members with MS in Taxation, MBT, or LLM (and teaching exclusively in taxation) for five years following the awarding of the degree.

Practice Academics (PA) sustain currency and relevance through professional engagement and relevant professional activities. Normally, PA status applies to faculty members who augment their initial preparation as academic scholars with engagement activities that involve substantive linkages to practice or other forms of professional engagement.

Scholarly Practitioners (SP) sustain currency and relevance through continued professional engagement and scholarship related to their professional background and experience. Normally, SP status applies to practitioner faculty members who augment their experience with substantive scholarly activities in their fields of teaching.

Instructional Practitioners (IP) sustain currency and relevance through continued professional engagement related to their professional backgrounds and experience. Normally, IP status is granted to newly hired faculty members who join the faculty with a

master's degree and significant and substantive professional experience.

Faculty who have not sustained currency and relevance related to their teaching disciplines through the requisite scholarly or professional activity will be classified as *Other*.

### 3. Intellectual Contributions

Intellectual contributions (IC) of the faculty are divided into three categories: (1) Basic or Discovery Scholarship, (2) Applied or Integration/Application Scholarship, and (3) Teaching and Learning Scholarship. These categories are defined as follows:

- *Basic or Discovery Scholarship* generates and communicates new knowledge and understanding and/or development of new methods. Intellectual contributions in this category are normally intended to impact the theory, knowledge, and/or practice of business, economics and management.
- *Applied or Integration/Application Scholarship* synthesizes new understandings or interpretations of knowledge or technology; develops new technologies, processes, tools, or uses; and/or refines, develops, or advances new methods based on existing knowledge. Intellectual contributions in this category are normally intended to impact the practice of business, economics, and management.
- *Teaching and Learning Scholarship* develops and advances new understandings, insights, and teaching content and methods that impact learning behavior. Intellectual contributions in this category are normally intended to impact the teaching of business, economics, and management.

Consistent with the Mission and Vision of the College, and its graduate and undergraduate programs, the College seeks to maintain the following aggregate portfolio percentages among the three categories of intellectual contributions:

- Teaching and Learning Scholarship: 10-25%
- Applied or Integration/Application Scholarship: 45-55%
- Basic or Discovery Scholarship: 35-45%

The criterion at the College level is that the balance of contributions among the three categories must reflect the College's mission; however, the College's total portfolio of contributions cannot be predominantly in the area of teaching and learning scholarship. The College's desire for a more balanced overall portfolio will not affect the judgment of any one faculty member's individual portfolio.

### 4. Faculty Responsibility

Faculty members have the responsibility, using the above definitions, to exercise their best judgment in classifying and reporting their respective intellectual contributions. Each faculty member will update his or her information relating to qualification and intellectual contributions annually. The department chairs and the associate dean shall review faculty IC classifications and, when necessary, consult with faculty members to revise reported classifications in order to ensure consistency across departments and faculty.

#### 5. Criteria for Maintenance of Qualification

It is important for faculty to have appropriate initial preparation, either academic or professional, at the time of hire and to remain engaged in scholarship and/or practice throughout their career at the David Nazarian College of Business and Economics. A point system for intellectual and professional contributions to maintain qualification as SA, PA, SP, and IP is given below. Faculty members demonstrate maintenance of their qualification by engaging in activities that earn points for meeting the minimum requirement for each category.

**Scholarly Academic (SA).** To maintain SA status, faculty members are expected to develop a portfolio of intellectual contributions that demonstrate currency in their field and support the mission of the Nazarian College. As evidence of maintaining SA status, faculty members must earn a minimum of 8 points over a five-year period. Points may be earned for intellectual/professional contributions as described in VII.C.6 below for Categories A, B, C, D and E. At least 6 points in any five-year period must be earned in Category A or B.

**Practice Academic (PA).** To maintain PA status, faculty members are expected to be engaged in professional activities on a regular basis or make other contributions to the advancement of practice. These may include Basic or Discovery Scholarship intellectual contributions, consulting activities, service on boards of directors, etc. As evidence of maintaining PA status, faculty must earn a minimum of 6 points over a five-year period. Points may be earned for intellectual/professional contributions as described below for Categories A, B, C, D and E. At least 2 points during any five-year period must be earned from Category E.

- Faculty who have an administrative appointment that does not include research-designated release time will be granted PA status while on administrative assignment and for a grace period equal to their absence up to five years. They are expected to show progress toward renewing SA status during this grace period and to fully meet the criteria for SA status at the end of this additional period.

**Scholarly Practitioner (SP).** To maintain SP status, faculty members are expected to be engaged in academic pursuits on a regular basis. These may include peer-reviewed journal articles, editorship of academic journals or business publications, participation in

academic societies, membership on review boards, etc. As evidence of maintaining SP status, faculty must earn a minimum of 4 points over a five-year period. Points may be earned for intellectual/professional contributions as described below for Categories A, B, C, D and E. At least 2 points during any five-year period must be earned from Category A, B, C, or D and 2 points from Category E.

Instructional Practitioner (IP). To maintain IP status, faculty members are expected to be engaged in professional activities on a regular basis or make other contributions to the advancement of practice. These may include substantial consulting activities, participation in business-related professional events, service on boards of directors, etc. As evidence of maintaining IP status, faculty must earn a minimum of 4 points over a five-year period. Points may be earned for professional contributions as described below for Category E. These criteria are summarized below.

	SA	PA	SP	IP
Points Required from Specific Categories	At least 6 points from A or B	At least 2 points from E	At least 2 points from A, B, C or D and 2 points from E	At least 4 points from E
Minimum Total Points Required	8 points	6 points	4 points	4 points

6. Point System for Intellectual and Professional Contributions

a. Intellectual Contributions

i. Category A: 3 points each

- Articles or cases that meet the requirements of Category B and are considered impact journals by the college. A list of impact journals is available through the official Nazarian College web page. For personnel evaluations, candidates are “grandfathered” into the impact status of a journal for the 3 year period.

ii. Category B: 2 points each

- Articles or cases in peer-reviewed journals in the area of the faculty member’s primary teaching responsibility. Peer-reviewed journal publications must have an acceptance rate of not more than 40% as reported by directories of peer-reviewed journal listings and rankings. In addition, contributions must normally satisfy the

following three criteria:

*Mission Relevance.* The contribution shall apply to one or more of the following areas: basic or discovery scholarship, applied or integration/application scholarship, and teaching and learning scholarship.

*Public Availability or Verifiability.* A contribution is available for public scrutiny when practitioners or academic peers can, without undue difficulty, locate and retrieve the contribution in physical or electronic form. A contribution is verifiable when there is a public record that independently verifies the individual's work, for example, the listing of editorial board members in a professional journal.

*Independent Quality Assurance.* There must be a way to ensure that the contribution satisfies an acceptable standard of quality in the field. A common method is the peer-review process in which a contribution is read, assessed, critiqued, and subjected to sound acceptance standards by individuals with relevant academic or professional experience.

- First edition of academic textbooks in the faculty member's discipline (see Appendix for further guidance on how to interpret or implement certain aspects of the faculty qualification policy).
- Scholarly book that involves original scholarly research (see Appendix for further guidance on how to interpret or implement certain aspects of the faculty qualification policy).
- Book chapters in scholarly books that involve original research (see Appendix for further guidance on how to interpret or implement certain aspects of the faculty qualification policy).
- Book aimed at improving business practice (see Appendix for further guidance on how to interpret or implement certain aspects of the faculty qualification policy).
- Principal Investigator(s) of an award of a significant (>\$50,000) grant, contract, or sponsored project from a foundation, for-profit or non-profit organization, or public agency. Faculty member must provide evidence of the award and of deliverables.

iii. Category C: 2 points each

- Articles or cases in peer-reviewed journals in the area of the faculty member's primary teaching responsibility with an acceptance rate greater than 40%.
- Research reports or scholarly monographs resulting from

- original research that meet the peer-review criteria.
- Trade book on a topic relevant to the faculty member's discipline with field-based research.
- Principal Investigator(s) of an award of a substantial (\$10,000 - \$50,000) grant, contract, or sponsored project from a foundation, for-profit or non-profit organization, or public agency. Faculty member must provide evidence of the award and of deliverables.

iv. Category D: 1 point each

- Subsequent editions of academic textbooks.
- Article, paper, or case presented at academic conferences and published in conference proceedings.
- Case published in non-peer-reviewed publication (i.e., a textbook).
- Article in faculty member's discipline published in a non-peer-reviewed journal that otherwise meets the criteria above.
- Service as editor for a professional or academic journal.
- Service on the review board of an academic journal.
- Service on the board of an academic organization.
- Publicly available consulting report or testimony to an agency of government in a faculty member's area of expertise.
- Instructional software or simulation that is widely used beyond CSUN.
- Article on business practice or other area relevant to the faculty member's discipline in newspapers with national or regional distribution or magazines/journals with a broad readership; includes an article that does not fall into Category A or B.
- Invited address, presentation, lecture or colloquium in a faculty member's area of expertise.
- Publication in non-peer-reviewed trade journal.
- Presentation at a regional, national or international academic or professional conference.
- Book review in an academic journal.
- Ad hoc reviewing for academic journals or national or international academic conferences. (1 point each; maximum 2 points).

b. Professional Contributions

1) Category E: 2 points each except where noted

- Obtaining or completing the maintenance of appropriate academic or professional certification or licensure (e.g., CPA, CMA, California bar license, technical certifications such as Oracle, SAP, CISSP).
- Relevant paid part-time consulting activities of significant level, substance, and duration (90 or more hours per

- semester). (1 point each; maximum 2 points)
- Management responsibility or ownership in an outside business.
- Serving in an active leadership role in a business, non-profit or community-based organization (e.g., board of directors).
- Conducting a professional executive workshop or seminar. (1 point each; maximum 2 points)
- Significant participation in a business professional organization.
- Full-time employment in a senior managerial position or paid full-time consulting activities of significant level, substance, and duration. (1 point for each year of full-time employment/consulting)
- Faculty internships at a business, non-profit or community-based organization.
- Administrative position at the university, college, or department level that drives strategic change, curriculum development, or new program development.

7. Failure to Maintain Qualification Status

Faculty members who do not meet the criteria for maintaining SA, PA, SP, or IP status will be deemed to be not qualified and will be classified as “Other.” Faculty members who are no longer qualified are expected to develop an implementation plan that will allow them to regain qualified status. The plan shall be developed in consultation with the department chair, who, along with the dean, will review progress twice per year.

8. Process for Determining and Documenting Faculty Qualification Status

Each faculty member shall establish and maintain Faculty Data Sheets in a faculty activity reporting system (Digital Measures). It is the faculty member’s responsibility to update the profile to add activities to the system as they are accomplished. A faculty member’s profile will be reviewed and evaluated by the applicable department chair as needed to determine if the faculty member meets the expectations of the Nazarian College for qualification. The decision of the Dean of the David Nazarian College of Business and Economics is final regarding faculty qualification status.

D. FACULTY SUFFICIENCY STANDARD

Standard 5 of the Accreditation Standards for Business Accreditation of The Association to Advance Collegiate Schools of Business states: “The school maintains and deploys a faculty sufficient to ensure quality outcomes across the range of degree programs it offers and to achieve other components of its mission.” This is the faculty sufficiency standard. In accordance with this standard, at least 40% of the credit hours produced must be produced by

faculty qualified as Scholarly Academics. Additionally, at least 60% of the credit hours produced must be produced by a combination of faculty qualified as Scholarly Academics, Practitioner Academics and Scholarly Practitioners. Finally, at least 90% of the credit hours produced must be produced by a combination of faculty qualified as Scholarly Academics, Practice Academics, Scholarly Practitioners and Instructional Practitioners. This standards means that faculty qualified as Other must represent less than 10% of the credit hours produced. This standard is summarized as follows:

$$\begin{aligned} \text{SA} &\geq 40\% \\ \text{SA} + \text{PA} + \text{SP} &\geq 60\% \\ \text{SA} + \text{PA} + \text{SP} + \text{IP} &\geq 90\% \end{aligned}$$

## E. GRADUATE FACULTY

Policy Goal: The goals of creating a formal graduate faculty are to:

1. Strengthen graduate education in the College,
2. Satisfy AACSB concerns regarding standards for graduate education,
3. Provide formal recognition for faculty who teach in graduate programs,
4. Create a sense of ownership and pride for faculty who teach in graduate programs,
5. Provide an incentive for faculty to participate in graduate education.

### Qualifications for Joining the Graduate Faculty

Faculty must:

1. Be committed to achieving the vision and mission of the graduate program. Tenure-track faculty are expected and non-tenure track are encouraged to advance the program by participating in graduate faculty retreats and/ or serving the program in other capacities such as advising culminating experience projects, advising individual students, serving on the college graduate committee and participating in other activities sponsored by the graduate programs. Tenure track Graduate faculty are expected to continue to participate in these activities even in terms when they are not teaching a graduate course.
2. Demonstrate potential for excellent teaching and an understanding of how to link theory to practice through active learning. They should be particularly committed to instruction that: treats students collegially, values students' experience, is interdisciplinary and develops skills.
3. Meet faculty qualification standards normally required by the College. Tenure track faculty need to be qualified as Scholarly Academics or Practice Academics. Similarly, non-tenure track faculty may qualify by meeting the standards for Scholarly Academic, Practice Academic, Scholarly Practitioner or Instructional Practitioner.
4. Teach in a CSUN graduate program within a three-year period to remain qualified for the Graduate Faculty. Advising culminating experience projects or similar work satisfies this requirement.

## Recognition for Graduate Faculty

1. Graduate faculty will be identified in the University Catalog and on the college's website.
2. Graduate faculty will receive some form of special recognition.
3. Only graduate faculty will be eligible to serve on the College graduate committee.
4. Only graduate faculty may serve as the College Graduate Director.
5. Only graduate faculty are eligible for the annual graduate teaching and research rewards.

## Application and Admission Process

For initial creation of the Graduate Faculty, a review committee consisting of the Graduate Director and a subcommittee of the Graduate Committee, will review applicants and make recommendations to the Graduate Committee.

1. Tenure and non-tenure track faculty may apply to teach at the graduate level. To apply a faculty member should submit a letter of intent, an academic vita, current AACSB Faculty Qualification status, and solid evidence of consistently excellent teaching to the Graduate Director. The demonstration of excellent teaching should include all student teaching evaluations from the prior two years, all available class observations, and a demonstrated ability to link theory to practice through active learning. The Graduate Director will review the application along with the membership subcommittee of the Graduate Committee. Based on the recommendation of the subcommittee, the Graduate Committee will assign qualified faculty to the Graduate Faculty for a five-year period. Faculty may teach two semesters at the graduate level before applying.
2. After five years Graduate Faculty may apply for recognition for another five-year term. To re-apply a faculty member should submit a letter of intent, an academic vita, their current AACSB Faculty Qualification status, and solid evidence of consistently excellent teaching to the Graduate Director. The demonstration of teaching excellence should include all student evaluations of all Graduate level teaching in the last five years, all available Graduate class observations, and a demonstration of how the faculty member has linked theory to practice with active learning. The faculty member may also submit evidence of excellent teaching at the Undergraduate level including any and all student teaching evaluations from the prior two years, all available class observations, and a demonstrated ability to link theory to practice through active learning. The Graduate Director will review the application along with the membership subcommittee of the Graduate Committee. Based on the recommendation of the subcommittee, the Graduate Committee may re-assign qualified faculty to the Graduate Faculty for another five-year term.

## F. FACULTY DEVELOPMENT AND RENEWAL

## 1. New Faculty Orientation

Department Chairs will see to the orientation of new tenure-track faculty members. Orientation is provided as follows:

- A one-day orientation coordinated by The Office of Faculty Affairs and the Academic Senate.
- The New Faculty Survival Guide is online at <http://www.csun.edu/undergraduate-studies/faculty-development/journey-new-faculty>. The Guide is a comprehensive source of information about the University and the Los Angeles area.
- Individual departments will supplement University orientation activities through meetings, retreats, and/or written materials, including the College's Faculty Handbook.
- It is the responsibility of the department to provide new faculty members with mentorship opportunities.

## 2. Reassigned Time From Teaching, Service, Workload

A proposal for reassigned time from teaching is required each semester, and is reviewed by the Department Chair and the Dean. Granting of reassigned time requires approval of the Department Chair, the Dean, and the Provost. In general, reassigned time requires that the faculty member be **Scholarly Academic** qualified. Exceptions require the express approval of the Dean. The constraint to granting reassigned time to faculty meeting the criteria is that enough classes be scheduled in both days and evenings to allow the Department to achieve its FTES target (assigned by University Academic Affairs), to ensure adequate coverage by full time faculty, and to satisfy department budget constraints.

For the David Nazarian College of Business and Economics, reassigned time from teaching for research is typically given to:

- all new tenure-track faculty (consisting of one course release per semester for two years).
- faculty through their remaining probationary period provided significant progress is made in establishing a productive research program, consistent with meeting the expectations of VI.B.4.
- probationary and tenured faculty who are **Scholarly Academic** qualified and conducting a productive research program.

Faculty receiving reassigned time from teaching for research are expected to identify specific goals and to achieve them or equivalent results, as appropriate.

The College also may provide reassigned time for (1) teaching innovation, (2) new course preparation, (3) team teaching to achieve cross-discipline integration, (4) in some instances, to reduce

excessive committee load, (5) grant activities, and (6) special activities on behalf of the College, depending on resources available.

- a. **Teaching Assignment** - The majority of tenure-track and tenured faculty teach two or three days a week and have two preparations each semester. Faculty should submit formal requests regarding teaching assignment preferences to their department chairs each semester.
- b. **Service** - Faculty are expected to provide service at the Department, College, and usually at the University levels. For personnel committees, only tenured faculty are eligible for election. (See Section IV.A.6 for Personnel Committee eligibility.)
- c. **Workload** - A faculty member's appointment is structured into fifths:
  - 1) Each regular-size class taught counts as 20%, and each fulltime faculty member is reassigned 20% for office hours, committees, and other service/advisement tasks.
  - 2) Faculty who teach a large section (a target of 120 students) are granted credit for two courses (e.g., a large class is reflected as a 40% teaching assignment rather than a 20%).
  - 3) Beyond reassigned time granted by the College, faculty may receive reassigned time from the University: This reassigned time may be for University-sponsored research such as available through the Probationary Faculty Development Grant program, the Innovation in Teaching and Learning Award, or other similar programs.
  - 4) Faculty workloads must be managed to accommodate the needs of faculty to meet their various obligations towards teaching, research, and service. To support the College's commitment to the activities that further our mission, teaching assignments for tenure-track faculty and full-time lecturers normally should not exceed 12 units per semester, calculated cumulatively, whether performed at CSUN or elsewhere. Consistent with this standard, the College recognizes that the capacity and productivity of faculty members differs, so that individual variation from this rule may be consistent with the College's mission. The Department Chairs and the Dean shall monitor faculty workload and reassigned time to ensure that faculty are scheduled in a way to enhance their intellectual development and their contributions to the community and the University, within our budgetary and scheduling constraints.

Since Section 600 (CSUN Administrative Manual) places the burden on faculty members to ensure that outside activities do not interfere with their full-time employment at the College, all faculty who propose to undertake teaching duties at other campuses or institutions must, before the start of each semester, notify their Department Chair and the Dean of any such proposed outside commitments. The Chair and the Dean shall review the proposal and determine whether the proposed teaching opportunity furthers the College's mission. In that part-time faculty have lesser obligations to promote the College's mission through research and service, greater latitude may be appropriate. Part-time faculty shall notify their Department Chair of any planned teaching commitments elsewhere before the start of the semester so that the College may review whether the planned activity is consistent with the faculty member's obligations at the College.

Faculty not meeting the minimum requirements of VII.D.7 may receive a written request from the appropriate administrator for a report that relates to the requirements of Article 35 of the Collective Bargaining Agreement and Section 600 (California State University, Northridge Administrative Manual) relative to outside and supplementary employment not jeopardizing their individual functioning as a full-time employee of The California State University.

### 3. Faculty Development

- a. Faculty development is a process (a) to encourage and assist faculty members to achieve tenure and promotion, and (b) to ensure that all faculty meet either the academic or professional qualification requirements.
- b. In addition to information in the academic or professional qualification folder (independent of the PIF), described in Section VII.C.4, additional data are used to guide the faculty development process.
  - 1) All faculty update their Faculty Data Sheets in the online Digital Measures Database at least annually. Resumes from Digital Measures are required for all requests for reassigned time for research.
  - 2) Teaching Performance Assessment:
    - Due to the primary importance of teaching, particular attention is devoted to providing

guidance and mentoring about instructional pedagogy and content.

- Probationary faculty are required to have both quantitative and qualitative student evaluations in each class section. For tenured faculty, formal student evaluations of two class sections per year are required.
- Probationary faculty also must have at least two faculty peer evaluations of teaching conducted each year. These peer evaluations provide formal guidance to the evaluated faculty.

3) Current Faculty Professional Information Files (PIFs) are required from each faculty member being considered for retention, tenure, or promotion. These files, prepared by the faculty member, contain documentation of the individual's achievements in the areas evaluated as part of the RTP review: professional preparation, teaching effectiveness, contributions to the field of study, and contributions to the University and Community.

- c. With this common frame of reference, the Chair and the faculty member (and in some cases the Dean) meet to review the Digital Measures data and, where necessary, formulate plans for success in the coming year. For some faculty, specific recommendations may be made on potential research projects or how to improve teaching effectiveness and student evaluations. Especially for probationary faculty, attention is given to having a reasonable balance among competing activities, including managing an individual's teaching schedule and service on committees.
- d. Discussions of resource requests (for reassigned time, computer materials, travel, etc.) feed directly into Departmental and College fiscal planning and budgeting.
- e. Although these goal-setting and discussion sessions are purely consultative and supportive and do not imply a contract, they are important since they may constitute the basis for teaching assignments and resource allocations.

#### 4. Faculty Development Support Processes

- a. In addition to the formal faculty development process described in the previous section, there are a number of support processes to assist faculty in improving teaching effectiveness and in meeting the academic qualification requirement.
- b. The College supports the faculty in improving their teaching by providing (a) teaching performance evaluations by both

students and faculty peers, described in Section VII.F.3, which provide individual data; and (b) teaching support opportunities within the College and University. These opportunities include course affinity groups, individual mentoring, help and training from the CSUN Information Technology Resources department, and a large variety of workshops and programs offered by the CSUN Center for Innovative and Engaged Learning Opportunities (C.I.E.L.O.).

- c. The process to support academic qualification (AQ) has three primary components: (a) the documentation and review process described in Section VIII.C.4, which provides data on current status and trends for each faculty member; (b) feedback, based on the data, to individual faculty from their department chair or designee, and (c) a focused professional contributions support program for individuals. The process includes a flexible mixture of research circles, resource advisors, and mentoring. The process assists participating faculty in improving their results in professional contributions, to the end of achieving or maintaining AQ status. This assistance can take, for example, the form of suggesting possible research topics, facilitating formation of research circles, reviewing manuscripts in process, providing opportunities to present work-in-progress, and coauthoring papers. The support program is available to any faculty member, but is particularly oriented to the needs of (a) faculty who are not currently AQ, and (b) faculty who are in danger of losing AQ status because of an unfavorable trend in contributions during the last five years.
- d. A mentor may be assigned by a Department Chair to assist a faculty member relative to research and professional contributions, either at the request of that faculty member or at the suggestion of the Chair in consultation with the faculty member. Mentors will be individuals who are academically qualified, particularly successful in publishing, and willing to assist colleagues. Normally, a mentor will be in the same department as the individual being assisted. The mentoring scope and process will be established by the mentor and the faculty member. At the annual goal-setting and review meeting with the faculty member, and informally at other times, the Chair will inquire about the mentoring process and make adjustments as appropriate.

## 5. Post Tenure Review

Post tenure review of tenured faculty is required at least every five years. Such reviews should consider teaching effectiveness and direct instructional contributions, contributions to the field of study, and contributions to the University and the community. The review is conducted by a department Peer Review Committee and the Dean. The Peer Review Committee should consult the tenured members of

the department and the Department Chair as part of the review process.

6. College Support for Development and Renewal

The David Nazarian College of Business and Economics at California State University, Northridge is committed to actively supporting the intellectual development and renewal of faculty. Several of the practices previously mentioned address what the College does to provide faculty with planning consultation and orientation. The College invests in faculty development with several types of resources: assigned time, research and curriculum grants, interdisciplinary external grants, distance learning opportunities, conference travel, sabbaticals, and difference-in-pay leaves. Consistent with the College mission and values, the College makes every effort to fund research and creative activity through peer reviewed seed grants.

- a. Decision processes concerning College supplied research grants, sabbaticals and other forms of professional leave are administered principally by elected faculty committees, Chairs, and the Dean as described in Section IV.A.6 and Section VI. of the Faculty Handbook.
- b. Faculty who have received a sabbatical or difference-in-pay leave are required to submit a written report of their leave activities to the Department Chair and the Dean within 90 days after return to service, as specified in Section 600 (California State University, Northridge Administrative Manual). They are expected to communicate the results of their sabbatical research (or professional development efforts) to their peers in their department or, as appropriate, to their peers at an academic conference or journal.
- c. Travel for the active participation of faculty in academic and professional organizations is supplied by the College, pending availability of funds.
  - 1) Sources of Funds. Travel funds are part of the College budget. Augmentations may occur in the Fall and Spring semester.
  - 2) Objectives: Travel funds shall be allocated so as to:
    - a) Ensure that the distribution of funds among all qualified faculty is based on merit.
    - b) Maximize exposure of College research efforts within the disciplines.
    - c) Support the operations of discipline related academic and professional associations.
    - d) Assist in the recruitment efforts of the College.
    - e) Enhance the production of intellectual

contributions.

3) General Guidelines:

- a) It is the policy of the College to accommodate all legitimate requests for travel, given the availability of funding.
- b) Where possible, faculty will travel by the most cost effective method consistent with time constraints. Faculty are encouraged to share expenses.
- c) Full funding is considered the norm. Partial funding may be necessary when funds are scarce.
- d) An eTravel Travel Authorization must be approved prior to travel.. Arrangements should be made in advance for a faculty member to cover classes that will be missed. Approval of the Department Chair and Dean of the College is required for all travel requests.
- e) Out-of-state travel may be approved for one or more of the following purposes: (1) to deliver a paper at a meeting of a professional association or society, to serve on a panel, or to fulfill obligations as an officer in the association or society; (2) to recruit faculty or administrative personnel; (3) to perform duties essential to the normal operation of the campus as certified by the President or his/her designee.
- f) All requests for reimbursements should be processed through the Department Coordinator. Requests for reimbursements of travel must be completed and submitted online in eTravel.

4) Participation in Professional Organizations.

Participation in professional organizations is encouraged. In general, travel funding should consider the level and nature of the contribution. Priorities are ranked as follows:

- a) Elected officers of professional organizations (president, vice president, secretary/treasurer, editors of publications, program track chairs).
- b) Discussants of competitive sessions, special session chairs, panelists.
- c) Competitive session chairs.
- d) Chairs of round table discussion groups.
- e) Advisory board members and other positions that significantly contribute to the organization and administration of a professional meeting.

- f) When resources permit, faculty travel for professional development may be authorized.

## 7. Professional Activities

The David Nazarian College of Business and Economics encourages faculty to develop and continue close relationships with business, government, and community organizations. Our mission provides a clear and supportive statement to faculty on the value of applied research and the importance of professional associations. Consistent with University policy and the College's mission, our faculty consistently engage in research and consulting with industry, government, and non-profit partners. These efforts produce positive outcomes in terms of our visibility and reputation, the creation of a continual stream of new classroom materials, and the development of competent, valuable research leading to faculty publication and broad dissemination of new knowledge.

- a. Faculty may engage in outside professional activities, paid or unpaid, outside their normal faculty responsibilities under the following conditions:
- These activities meet the restrictions delineated in CSU policy and State of California regulations (see for example: HR2002-05 and HR 2003-09).
  - These activities do not interfere with the faculty's teaching, research, and administrative responsibilities (see California State University, Northridge Administrative Manual (Section 600), "Supplementary Employment of Academic and Administrative CSU Employees").
- b. Paid outside faculty activities should meet one or more of the following guidelines:
- Be consistent with the development, maintenance, and application of skills and knowledge consistent with mission and the teaching, research and service objectives of the David Nazarian College of Business and Economics.
  - Provide the faculty member with the opportunity to enhance and update his or her professional skills.
  - Be of benefit to the university's internal or external communities.
  - Contribute to the body of knowledge and practice in the faculty member's areas of professional expertise.
- c. So long as outside activities (both paid and unpaid) satisfy paragraphs a and b above, faculty enjoy a considerable degree of self-determination.

University policy does have more restrictive provisions for faculty engaging in

consulting or grant award projects funded from non-State sources where the payor is the University or one of its auxiliary units. This segment of University policy places restrictions on the amount of time (not dollars) a faculty member can earn as "overload" compensation through University sources (125 percent of workload during the fiscal year).

The amount budgeted for the academic departments will be allocated by a formula adopted by the Administrative Council. Variables in the formula will include measures of departmental performance based on the mission of the College and the number of faculty in each department. At the beginning of each fiscal year, the MAR will distribute to the department Chairs and Coordinators a spreadsheet that shows the formula and the amount allocated to each department. The spreadsheet will be given to any interested person.
