

Randal Maestas

Risk Manager, CoorsTek, Inc.

Randal Maestas entered the RMI industry following graduation from University of Colorado Denver's RMI program. A summer internship at Lockton, a commercial insurance broker, parlayed into a full time position servicing insurance programs for large accounts.

During this time, Randal was involved with the local RIMS chapter. A couple of connections there opened the door to the client side of the business. Randal is now the risk manager for CoorsTek, a global manufacturing company.

Randal is also the Vice Chair for RIMS Student Advisory Council. A panel assembled to coordinate RIMS' global student outreach, student to RRP transition efforts, and student membership programs.
