				The machine is securely restrained to							
1				prevent movement in accordance with the machine manufacturer's recommendations or sound engineering practices.							
				8 CCR §3328(d)							
2				The machine's electrical attachment plug is connected directly to the building's wiring and that wiring's ampacity is rated for at least 125% of the machine's full load current.							
				24 CCR 3 §670.4(A) (2022)							
3				The machine's power cord and plug are in good condition with no cuts or fraying of the insulation.							
				8 CCR §3328(c)							
4				The machine is equipped with a means to promptly disconnect power, such as a switch, in case of emergency. 8 CCR §4001							
5				If the machine is powered by permanent conductors from the building's wiring, the incoming power supply circuit is terminated at a disconnecting means located immediately adjacent to the machine. 24 CCR 3 §670.4(B) / NFPA 79 §5.1.9.6 (2021)							
6				The disconnecting means is legibly marked to indicate the equipment it disconnects. 24 CCR 3 §110.22 / NFPA 79 §5.1.9.2 (2021)							
7				All disconnecting means enclosures are marked with a safety sign in accordance with ANSI Z535.4 to warn qualified persons of potential electric shock and arc flash hazards. 24 CCR 3 §110.16 / NFPA 70E §130.5(H)							
				= `,							

A minimum of 36 inches of clearance is provided in front of disconnecting means to ensure safe maintenance. 24 CCR 3 §110.26 (2022) A written and verified Hazardous Energy Control procedure (Lock Out Tag Out / LOTO) is readily available for the machine. 8 CCR §3314(G) Section B – Safeguarding The saw is equipped with a guard which completely encloses the blade and the bottom of which is 'x' above the material being cut. 8 CCR §4300.1(a) The saw is equipped with a spreader for ripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR \$4300.1(c)(2) Section C – Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants? 8 CCR §3273(a)	#	YES	NO	N/A	Checklist Item	Comment	Date Corrected			
A written and verified Hazardous Energy Control procedure (Lock Out Tag Out / LOTO) is readily available for the machine. 8 CCR §3314(G) Section B - Safeguarding The saw is equipped with a guard which completely encloses the blade and the bottom of which is '¼" above the material being cut. 8 CCR §4300.1(a) The saw is equipped with a spreader for ripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C - Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D - Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?	8				provided in front of disconnecting means to					
Control procedure (Lock Out Tag Out / LOTO) is readily available for the machine. 8 CCR §3314(G) Section B – Safeguarding The saw is equipped with a guard which completely encloses the blade and the bottom of which is '½" above the material being cut. 8 CCR §4300.1(a) The saw is equipped with a spreader for ripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C – Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?					24 CCR 3 §110.26 (2022)					
Section B – Safeguarding The saw is equipped with a guard which completely encloses the blade and the bottom of which is ¼" above the material being cut. 8 CCR §4300.1(a) The saw is equipped with a spreader for ripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C – Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?	9				Control procedure (Lock Out Tag Out /					
The saw is equipped with a guard which completely encloses the blade and the bottom of which is ½" above the material being cut. 8 CCR §4300.1(a) The saw is equipped with a spreader for ripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C - Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D - Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?					8 CCR §3314(G)					
completely encloses the blade and the bottom of which is ¼" above the material being cut. 8 CCR §4300.1(a) The saw is equipped with a spreader for ripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C - Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D - Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?	Section B – Safeguarding									
The saw is equipped with a spreader for ripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C – Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?	1				completely encloses the blade and the bottom of which is 1/4" above the material					
pripping operations. 8 CCR §4300.1(b) The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C - Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D - Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?					8 CCR §4300.1(a)					
The saw is equipped with anti-kickback devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C – Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?	2									
devices for ripping operations. 8 CCR §4300.1(c)(1) Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C - Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D - Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?					8 CCR §4300.1(b)					
Push sticks are readily available for ripping narrow boards. 8 CCR 4300.1(c)(2) Section C – Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?	3									
A noise survey has been performed while A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?					8 CCR §4300.1(c)(1)					
Section C – Industrial Hygiene A noise survey has been performed while the machine is in normal operation. 8 CCR §5097(b) Section D – Housekeeping If so equipped, the saw's power cord is positioned so that it does not become a tripping hazard to the operator or their assistants?	4				narrow boards.
