10	Inspectors Name _____ Initials →					

Circle Y for Yes or N for No for each question

ALL NO RESPONSES REQUIRE IMMEDIATE CORRECTIVE ACTIONS. DOCUMENT ACTIONS TAKEN ON THE BACK OF THIS FORM.

Retain Inspection forms for two (2) years in Department.

Instructions: Inspect waste containers holding hazardous wastes once a week for leaks, signs of corrosion, bulging, swelling, and proper labeling. If a container is found to be leaking immediately, transfer the waste to a new container. Containers must be closed at all times except when adding wastes. Waste containers must not be stored next to other containers holding incompatible chemicals unless they have separate secondary containment.
