MISSION STATEMENT

The Matador Advising Hub at California State University, Northridge is a centralized advising office for first-year freshman and new and continuing exploratory students. We strongly support the belief that academic advisement is a vital part of helping students accomplish their academic and professional goals. Cultivating a collaborative relationship between students and advisors is central to our work at the Hub. Students will have a clearer understanding of their role as active learners and their academic objectives as they move forward in their chosen educational path.
