Campus Safety Plan
2020
California State University, Northridge prepares this report in compliance with California State Education Code, Chapter 16, of the Donahue Higher Education Act, Section 67380.

California State University, Northridge (also known as CSUN) is a public university located in the Northridge neighborhood of Los Angeles, California, in the San Fernando Valley. The 356-acre campus is home to 38,391 (Fall 2019) students, including 3,200 residents, as well as 3,900 faculty, staff and administrators. CSUN remains committed to the safety of our campus community, educational and professional goals of its students, as well as its extensive service to the community.

AVAILABILITY, LOCATION, AND METHODS TO SUMMON LAW ENFORCEMENT ASSISTANCE

The CSUN Department of Police Services employs twenty eight (28) highly-trained, full-time, sworn police officers, seven (7) 911 Public Safety Answering Point Dispatchers, thirty (30) part-time student Community Service Assistants, and an active support staff for the 24-hour protection of the CSUN campus community. The Department is located on the CSUN campus at 9222 Darby Avenue on the southwest corner of Darby Avenue and Prairie Street.

California State University peace officers have state-wide police authority and jurisdiction per Penal Code 830.2 and Education Code 89560, and are vested with law enforcement powers and responsibilities, identical to the local police or sheriff departments in your home community. The University also employs ten (10) contracted security guards for perimeter security of the University Park residential life complex.

The Department of Police Services maintains close working relationships with all local, county, state and federal public safety agencies through partnerships and mutual aid agreements. Memorandums of agreement (MOA) for law enforcement assistance have been established with the Los Angeles Police Department and Los Angeles County Sheriff’s Office.

To Report a Crime, Suspicious Circumstances, or an Emergency

• Call the CSUN police at 818-677-2111. In the event of an emergency, dial 9-1-1 or use a campus blue light emergency phone, or text to 9-1-1
• Give your name, telephone number, and location.
• Give clear and accurate information.
• Be prepared to supply suspect and vehicle description, and direction of travel.
• DON’T HANG UP! Follow the instructions of the dispatcher.

An On-line Reporting Option is available for the following non-emergency crimes/incidents. Contact by a police investigator will be made on the next business day following submittal of the report. (http://www.csun.edu/police/file-report-online)

• Harassing Phone Calls
• Non-Injury Hit and Run Traffic Collisions
• Unlawful Smoking and Tobacco Use
• Vehicle Tampering
• Vandalism

• Lost Property
• Identity Theft
• Theft
• Vehicle Burglary
• Bullying & Harassing Behavior

Telephone Contact for Administrative and/or Non-Emergency Related Services:

• CSUN Department of Police Services (818) 677-2111
• The Department of Police Services provides numerous safety services to include, but not limited to: vehicle unlocks, jump-starts, amber light parking lot patrols, room unlocks, victim/witness services, restraining order assistance, and personal safety plans.

In Person Contact:

• CSUN Department of Police Services is located at 9222 Darby Avenue on the southwest corner of Darby Avenue and Prairie Street.
SPECIAL SAFEGUARDS FOR FACILITIES OR ACTIVITIES

Security of and Access to Campus Facilities
All campus facilities are key-accessed, and most are open daily for scheduled campus community use. Facilities within the University Park Residential Life Complex are controlled via key card access with a secure gated security program operating from 7:00pm to 2:30am seven days a week. Campus key control and distribution are functions of the Physical Plant lock shop, while key access control for the residential complex rests with the Residential Life administrative office. To provide for the security of campus facilities, the University Police enforces Educational Code 89031 & Residential Life housing policies. Campus facility access may be revoked per Penal Code 626.

Security Considerations Used in Maintenance of Campus Facilities
The Department of Physical Plant Management is responsible for security of all campus facilities. Personnel perform daily building lock-up and monitor all maintenance issues in campus lighting, door locks and general environmental safety in conjunction with the Department of Police Services. An annual inspection and survey of campus indoor/outdoor lighting, shrubbery and walkways is conducted, with the Department of Police Services providing security surveys upon request or when a need is observed. The University participates in Crime Prevention through Environmental Design concepts for planning and improvements on campus.

Campus CCTV System
The campus has a closed circuit television (CCTV) system to further enhance the safety and security in public areas of the campus. This technology can detect criminal acts and also deter potential offenders who recognize the elevated risk of apprehension from such as system in that the information they provide is extremely valuable in capturing criminal activity and helping identify suspects.

This technology provides value before, during, and after criminal activity. The general knowledge within the campus community of the existence of the CCTV system serves to deter some from engaging in criminal or illicit behavior. Because of random monitoring and alerting features, the system often provides a means for law enforcement to intervene in ongoing criminal activity. Lastly, the recording of video feed is often found to provide critical forensic information aiding criminal investigations.

Emergency Blue Light Call Stations
A 9-1-1 24-hour, button activated, emergency telephone system will put you in contact with emergency personnel for any emergency need. There are 93 call stations located throughout the CSUN campus, including residential housing. Four of the stations are yellow in color, as shown on the Blue Light Phone Map (view web link below). These are TTY call boxes designed for the deaf and hard of hearing community. They are equipped with a small keyboard that enables the caller to type messages directly to University Police Dispatch. The police dispatcher can send a message to the caller by either typing or using a computer to choose pre-selected emergency responses. (The campus Emergency Blue Light Phones Map can be viewed on-line at http://www.csun.edu/sites/default/files/bluelights.pdf or on CSUN’s mobile app.)

Crime Prevention Programs
Crime Prevention Programs on topics to include, but not limited to, personal safety, sexual violence awareness and prevention, theft prevention, and workplace violence are sponsored by various campus organizations throughout the year. For additional information regarding programming on campus, see the campus Annual Clery Security Report located on-line at http://www.csun.edu/sites/default/files/clery-report.pdf.

Personal Safety Escorts
The Department of Police Services provides night safety escorts to/from campus facilities and activities Monday-Thursday from dusk to 11:00pm through use of its Matador Patrol student community service assistant program. Matador Patrol members are easily recognizable wearing university colored (red, black, white) uniforms and use foot, bicycle, and six-seat electric cart patrols around campus during the aforementioned times. During times the Matador Patrol service is unavailable, University Police are available to assist in providing personal safety escorts. Call dispatch at (818) 677-2111 for safety escort requests or use the Safety Escort button in the CSUN mobile app.
Special Event Safety Planning
Preparation for large events on campus involve the creation of Incident Action Plans according to the Standardized Emergency Management System and in collaboration with mutual aid agencies and contracted safety personnel.

**ACTIONS IN THE LAST 18 MONTHS TO INCREASE SAFETY**

- Installation of 36 additional CCTV cameras within the Sierra Hall, Live Oak Hall, and Eucalyptus Hall facilities.
- The campus continued the upgrade conversion of the standard Omni Locking system to a new campus standard using the Sargent Assa Abloy electronic door locking system. This enhancement of the campus door access system allows for a more rapid response in “re-keying” should a person’s code be compromised or keycard lost. 162 of 600 locks have been converted to date.
- Continuing our efforts in increased campus awareness of crime prevention/safety programming in the following areas: hate motivated incidents, cyber safety, personal safety and aerosol defense options, sexual violence awareness & prevention, and alcohol and substance use/abuse within Greek Life.
- Completed night campus safety walks (Fall 2018 and 2019) looking for security and/or safety deficiencies such as fall hazards, lighting needs, vegetation maintenance, etc.
- Implementation of the Active Shooter Survival Escape Response Training program (ASSERT) offered to the campus community.

**CHANGES IN SAFETY PRECAUTIONS DURING THE NEXT 24 MONTHS**

- Expansion of the campus analytic CCTV system in the university student union, university housing complex, and the campus perimeter.
- Enhance a selected number of current cameras to new 360 degree high definition technology.
- Night campus safety walks looking for security and/or safety deficiencies such as fall hazards, lighting needs, vegetation maintenance, etc. have been planned for the Fall 2020 and 2021 semesters.
- Up to 50 Omni door access locks per year are planned for an upgrade to the new campus standard locking system (i.e., Sargent Assa Abloy) allowing for a more rapid response in “re-keying” should a person’s code be compromised or keycard lost.
- Phase 1 installation of gunshot detection technology to further strengthen the police and fire rescue response to an active shooter incident.
- Assessment, design, and phase 1 installation of door locking systems within campus facilities to improve the campus’ safety in the event of a critical incident.
- Installation of a P25 compliant public safety radio communication system to provide for the effective interoperable communication capabilities required in responding to and mitigating a critical incident requiring the assistance of many first responding agencies (e.g., police, fire, rescue ambulance services, federal/state agencies, etc.).

The statistics were compiled using the FBI Uniform Crime Reporting program definitions, occurring on campus, and in compliance with California State Education Code, Chapter 16, of the Donahue Higher Education Act, Section 67380.
