## Independent Auditor's Report

To the Board of Directors  
California State University, Northridge Foundation

### *Report on the Financial Statements*

We have audited the accompanying financial statements of California State University, Northridge Foundation, which comprise the statement of financial position as of June 30, 2015, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of California State University, Northridge Foundation as of June 30, 2015, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### *Report on Summarized Comparative Information*

The summarized comparative information of California State University, Northridge Foundation as of June 30, 2014 and for the year then ended were audited by other auditors whose report dated September 16, 2014 expressed an unmodified opinion on that information.

### *Report on Supplementary Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedules of net position, revenues, expenses and changes in net position and other information are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## Notes to Financial Statements June 30, 2015

### Note 1 - Business activity and summary of significant accounting policies

#### **Business activity**

California State University, Northridge Foundation (the "Foundation") is a nonprofit 501(c)(3) California corporation that serves as an auxiliary organization to California State University, Northridge (the "University") with a goal of furthering the purposes and objectives of the University. The Foundation's main function is to administer the receipt and disbursement of gifts, grants, contracts, bequests, and trusts from various donors to different departments of the University. The Foundation also assists the University in various activities, including accumulation and managing life income, annuity and student scholarship funds, and administering funds for various educational related functions, special programs, and other activities.

#### **Basis of accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

#### **Financial statement presentation**

To ensure the observance of certain constraints and restrictions placed on the use of resources, the accounts of the Foundation are maintained in accordance with the principles of net asset accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into net asset classes that are in accordance with specified activities or objectives. Accordingly, all financial transactions have been recorded and reported by net asset class as follows:

*Unrestricted - Undesignated* – These generally result from revenues generated by receiving unrestricted contributions, providing services and receiving income from investments less expenses incurred in providing program related services, raising contributions and performing administrative functions.

*Unrestricted - Board-Designated* – The Foundation's Board of Directors has adopted a policy regarding operating reserves and annually reviews the policy and amount. As of June 30, 2015, the Foundation's Board of Directors has designated \$5,000,000 as an operating fund reserve as mandated by the Board of Trustees of the California State University. As of June 30, 2015, the Foundation's Board of Directors has designated \$1,491,976 for institutional support.

*Temporarily Restricted* - The Foundation reports gifts of cash and other assets as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or the purpose of the restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from purpose or time restrictions. The Foundation has \$69,126,262 of temporarily restricted net assets at June 30, 2015.

# California State University, Northridge Foundation

## Notes to Financial Statements June 30, 2015

*Permanently Restricted* - These net assets are from donors who stipulate that resources are to be maintained permanently, but permit the Foundation to expend all of the income (or other economic benefits) derived from the donated assets. The Foundation has \$50,856,536 of permanently restricted net assets at June 30, 2015.

### **Contributions**

Contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support depending on the existence or nature of any donor restrictions. Contributions for which donors have not stipulated restrictions, as well as contributions for which donors have stipulated restrictions but which are met within the same reporting period, are reported as unrestricted support.

Unconditional promises to give with payments due in future periods are reported as restricted support. Gifts of land, buildings and equipment are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulation, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Conditional promises to give, which depend on the occurrence of a specified future and uncertain event to bind the promissory, shall be recognized when the conditions on which they depend are substantially met, that is, when the conditional promise becomes unconditional.

### **Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, demand deposits and all highly liquid investments with an initial maturity at date of purchase of three months or less.

### **Investments**

Investments are reported at their fair values in the statement of financial position. Realized and unrealized gains and losses are included in the statement of activities as investment income.

Investments are made according to the investment policies, guidelines, and objectives adopted by the Foundation's Board of Directors. These guidelines provide for investments in equities, fixed income, and other securities with performance measured against appropriate indices. The investments are generally managed by outside investment managers contracted by the Foundation. Market values of such investments and credit ratings of bond issuers are routinely reviewed by the Foundation's Board of Directors.

# California State University, Northridge Foundation

## Notes to Financial Statements June 30, 2015

### **Fair value measurements**

The Foundation values its financial assets and liabilities based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

### **Pledges receivable**

Pledges receivable are stated at unpaid balances, less an allowance for doubtful accounts and a discount on those pledges receivable due in greater than one year. The Foundation provides for losses on receivables using the allowance method. The allowance is based on experience and other circumstances. Receivables are considered impaired if full principal payments are not received in accordance with the contractual terms. It is the Foundation's policy to charge off uncollectible receivables when management determines the receivable will not be collected.

### **Gift annuities receivable**

The Foundation is the beneficiary of twelve charitable gift annuities administered on the Foundation's behalf by the California State University Foundation, an auxiliary of the California State University Office of the Chancellor. These annuities represent the assets received in the form of contributions in exchange for distributions of a fixed amount for a specific period of time to the donor or other beneficiaries. At June 30, 2015, the fair market value of the donated assets was \$496,002, the annuitant liability was \$277,746 and the net receivable due from the California State University Foundation at June 30, 2015 was \$218,256.

**California State University, Northridge Foundation**

**Notes to Financial Statements  
June 30, 2015**

**Beneficial interest in charitable remainder trusts**

The Foundation has been designated as the beneficiary of assets held in four charitable remainder trusts administered by other trustees. A receivable is recorded at the present value of the amount held by the trustee that is expected to be received by the Foundation. The Foundation uses an interest rate commensurate with the risks involved to discount the contribution receivable. The discount rate used during the year ended June 30, 2015 was 2.0%. The amortization of this discount and changes in actuarial assumptions are reflected in the statement of activities as a change in value of beneficial interest in charitable remainder trusts.

**Other receivables**

The Foundation is the irrevocable beneficiary or owner of other assets, including an interest in a life estate, a note receivable payable to the Foundation and two life insurance policies in which the Foundation is both the owner and beneficiary. The life estate is presented at the present value of the underlying real estate. The note receivable and life insurance policies are presented at their current market value.

**Collections**

The collections, which were acquired through contributions since the Foundation's inception, are not recognized as assets on the statement of financial position. Purchases of collection items are recorded as decreases in unrestricted net assets in the year in which the items are acquired or as temporarily or permanently restricted net assets if the assets used to purchase the items are restricted by donors. Contributed collection items are not reflected on the financial statements. Proceeds from deaccessions or insurance recoveries are reflected as increases in the appropriate net asset classes. There were no collection items acquired or deaccessioned during the year ended June 30, 2015.

The Foundation's collections are made up of rare Chinese artifacts that are held for educational, research, scientific and curatorial purposes. Each of the items is cataloged, preserved and cared for, and activities verifying their existence and assessing their condition are performed continuously. The collections are subject to a policy that requires proceeds from deaccessioning to be used to acquire other items for collections.

**In-kind contributions**

The Foundation records various types of in-kind contributions. Contributions of tangible assets are recognized at fair value when received. Contributed services are recognized at fair value if the services received (a) create or enhance long-lived assets, or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. The amounts reflected in the accompanying financial statements as in-kind contributions are offset by like amounts included in expenses. For the year ended June 30, 2015, the Foundation recorded in-kind contributions of \$401,339 (see Note 6).

# California State University, Northridge Foundation

## Notes to Financial Statements June 30, 2015

### **Income taxes**

The Foundation is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701(d) of the Revenue Taxation Code of California. Accordingly, no provision for income taxes is included in the accompanying financial statements.

The Foundation has no unrecognized tax benefits at June 30, 2015. The Foundation's Federal income tax returns for fiscal years 2014, 2013 and 2012 remain open. The Foundation's state income tax returns for fiscal years 2014, 2013, 2012 and 2011 remain open. Management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

If applicable, the Foundation recognizes interest and penalties associated with tax matters as part of income tax expense and includes accrued interest and penalties with the related tax liability in the statement of financial position.

### **Functional allocation of expenses**

The costs of providing services have been summarized on a functional basis. Accordingly, certain costs have been allocated among the program services and supporting services benefited. Program services include Scholarships, Academic Support, Institutional Support, Capital Projects and University Programs relating to athletics.

### **Use of estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### **Comparative totals**

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

### **Reclassifications**

Certain reclassifications of 2014 amounts have been made to conform with the 2015 presentation.

### **Subsequent events**

The Foundation has evaluated subsequent events through September 21, 2015, which is the date the financial statements were available to be issued.

# California State University, Northridge Foundation

## Notes to Financial Statements June 30, 2015

### Note 2 - Concentrations of credit risk

Financial instruments which potentially subject the Foundation to concentrations of credit risk include cash and cash equivalents. The Foundation maintains its cash and cash equivalents and investments with high-credit quality financial institutions. At times, such amounts may exceed Federally insured limits.

The Foundation's investments are subject to various risks, such as interest rate, credit and overall market volatility risks. Further, because of the significance of the investments to the Foundation's financial position and the level of risk inherent in most investments, it is reasonably possible that changes in the values of these investments could occur in the near term and such changes could materially affect the amounts reported in the financial statements. Management is of the opinion that the diversification of its invested assets among the various asset classes should mitigate the impact of changes.

At June 30, 2015, two donors accounted for approximately 60% of the Foundation's total pledges receivable. For the year ended June 30, 2015, two donors accounted for approximately 22% of the Foundation's contributions.

### Note 3 - Investments

## Notes to Financial Statements June 30, 2015

Financial assets valued using Level 1 inputs are based on quoted market prices within active markets and are valued on a recurring basis. Financial assets valued using Level 2 inputs are valued based on investment yields. The fair value of limited partnerships is determined using the NAV of shares held by the Foundation at the value reported by the general partner, which can lag from 45 days to six months. In some instances, the NAV may not equal the fair value that would be calculated under fair value accounting standards.

The fair value of gift annuities receivable is determined based on the annuitant liability adjusted to reflect changes in life expectancies (see Note 1). The fair value of beneficial interest in charitable remainder trusts is determined based on the value of the underlying assets provided by the trustee. Valuation provided by fund administrators consider variables such as the financial performance of underlying investments, recent sales prices of underlying investments and other pertinent information. In addition, actual market exchanges at year-end provide additional observable market inputs of the exit price. The Foundation reviews valuations and assumptions provided by fund administrators for reasonableness and believes that the carrying amounts of these financial instruments are reasonable estimates of fair value. For the year ended June 30, 2015, there have been no changes in the valuation methodologies.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3):

Balance, beginning of year	\$ 16,125,970
Realized and unrealized gains, net	1,713,069
Purchases	2,000,000

**Note 5 - Pledges receivable**

At June 30, 2015, pledges receivable consist of unconditional promises to give and have been recorded at their present values. Those receivables that are due in future periods have been discounted to their present values, using a discount rate of 3%. The receivables are recorded as follows:

	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
Due in 1 Year	\$ 7,191,695	\$ 440,886	\$ 7,632,581

**Note 6 - Related party transactions**

University departmental support is dependent on the annual requirements of the various University faculties and departments and on contributed goods received during the year. Contributed goods that have a value that will depreciate, or that have a short useful life, are transferred to the University. Contributed goods with a cultural or artistic life are retained by the Foundation. Contributed goods transferred to the University during the year ended June 30, 2015, and included in program services expense, amounted to \$401,339 (see Note 1).

During the year ended June 30, 2015, amounts paid to the University were as follows:

Salaries and benefits	\$ 1,330,038
Scholarships	2,356,075
Other goods and services	1,189,400

During the year ended June 30, 2015, amounts received from the University for services, rent and programs were \$132,167.

The Foundation receives contributed services from the University for various administrative duties. For the year ended June 30, 2015, the value of such contributed services is approximately \$440,000, which is not included in the accompanying statement of activities. If the contributed services were recorded, the amount would be recorded as unrestricted contributions and unrestricted administrative expense.

## Notes to Financial Statements June 30, 2015

### **Note 8 - Endowments**

The Foundation's endowment consists of individual funds established for a variety of purposes. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds are classified and reported based on the existence of donor-imposed restrictions.

The Foundation's management and Board of Directors have interpreted the State of California Uniform Prudent Management of Institutional Funds Act ("UPMIFA") as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets: (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the Foundation and donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation's investment policies.

### **Investment return objectives, risk parameters and strategies**

The Foundation has adopted investment and spending policies, approved by the Foundation's Board of Directors, for endowment assets that attempt to provide a predictable stream of funding to programs supported by endowments while seeking to maintain the purchasing power of the endowment assets. Performance of the overall endowment against this objective is measured over an investment horizon of five to seven years. The endowments are also managed to optimize the long run total rate of return on invested assets, assuming a prudent level of risk. The goal for this rate of return is one that funds the Foundation's existing spending policy and allows sufficient reinvestment to grow the endowment principal at a rate that exceeds inflation (as measured by the Consumer Price Index). Over the short term, the return for each element of the endowment portfolio should match or exceed each of the returns for the broader capital markets in which assets are invested.

**California State University, Northridge Foundation**

**Notes to Financial Statements  
June 30, 2015**

**Spending policy**

The Foundation's Board of Directors has developed a spending policy to distribute accumulated earnings on an annual basis to further the purposes of the individual donor-designated funds. The intent of this policy is to provide a stable spending distribution to allow university departments to effectively manage programs funded by endowment funds, while maintaining the purchasing power of the endowment funds' assets. The Foundation's Board of Directors annually approves the spending rate, which is distributed quarterly. For the year ended June 30, 2015, the spending rate was 4% of the market value of those endowments without deficiencies or deficits as described above. The amount to be distributed for program use for the year ended June 30, 2015 is \$2,189,011.

Endowment net asset composition by type of fund as of June 30, 2015 is as follows:

	<u>Unrestricted</u>	<u>Temporarily restricted</u>	<u>Permanently restricted</u>	<u>Total</u>
Donor restricted endowment funds	\$ 621,491	\$ 34,373,779	\$ 50,856,536	\$ 85,851,806
Total funds	<u>\$ 621,491</u>	<u>\$ 34,373,779</u>	<u>\$ 50,856,536</u>	<u>\$ 85,851,806</u>
