INTRODUCTION

The State Trust Account Application is available as a Workflow in AdobeSign. This guide is designed to provide instruction on how to complete the workflow in AdobeSign (beginning on page 2) and provide detailed instructions on the application process (beginning on page 5). To access the workflow, a user must have Sender access in Adobe Sign. If you do not have Sender access, please contact the IT Help Center.

All signatures on the application must be the true facsimile (exact image) of the approver’s actual signature. This can be done using a smartphone or tablet. The application cannot be approved using the predefined signature font. For help setting up a permanent electronic signature that is stored in AdobeSign for later use (not Adobe DC or Adobe Pro), please contact the IT Help Center.

Per State Administrative Manual (SAM) 19440.1, each trust account established should be supported by a current authorizing document, which will remain on file in Finance & Trust Accounting until the trust account is dissolved. The documentation will state the type of trust, source of income, purpose of the trust time constraints, persons authorized to withdraw or expend funds, sample of signatures, reporting requirements, instructions for closing the account and disposition of balance in the account.
