Fall 2018 – Upper Division GE Course Sections for New Transfer Students

In Fall 2018, California State University, Northridge will offer **special sections of six popular upper-division General Education (GE) courses reserved exclusively for new transfer students**. The sections will combine traditional course content with assignments and information about the University as an institution, a culture and an intellectual experience. The courses introduce academic and co-curricular resources and link students to each other and to the campus community.

Taking one of these courses, reserved just for new transfer students, will help you make a smooth transition to the University and enhance your academic experience.
