

Job Title: Lead Web Developer
Job ID: 503350
Full/Part Time: Full Time
Regular/Temporary: Regular
Job Code: 0400 Analyst / Programmer
Job Grade: Expert
Salary From: \$6,249 **Salary To:** \$9,100 If applicable
Department: IT Web Dev & Emerging Tech -8280

Major Duties

Under general supervision of the Director, Enterprise Application Development, and in close collaboration with stakeholders across the institution, the Lead Web Developer takes the lead role in areas like Web Development Management, Content Management, System Integrations, etc. The incumbent serves as the lead developer and coordinator of services in the CSUN web presence.

- Oversees maintenance and improvement of clear and usable documentation for included services.
- Responsible for the technical operation of content management systems powering components of the CSUN web presence.
- Provides technical leadership, standards, code reviews, process, and architecture to make the development and maintenance of the CSUN web presence more robust and resilient. Strong emphasis on modernization tools such as cloud technologies, containerization, and CI/CD.
- Responsible for the design and development of integrations into new and existing systems that interact with components of the CSUN web presence, and to provide assistance and guidance to teams looking to do the same across the university.
- Provides leadership in setting and maintaining a high standard for providing support to end users for services in the CSUN web presence.
- Performs other duties as assigned.

Qualifications

- Equivalent to graduation from an accredited four-year college or university with Bachelor's degree in computer science in a job-related field
- Five years of full-time, progressively responsible field-related experience, including one year of project management, team leadership, systems implementation and PeopleSoft development.
- Three years of experience building and designing web services and programming experience in Python, JavaScript, and SQL, preferred.

Knowledge, Skills, & Abilities

- Extensive knowledge of: programming, systems analysis techniques, and systems development principles; and relational database principles.
- Ability and specialized skills in developing, administering, and supporting web services written using PHP frameworks such as Laravel and front-end frameworks such as React. Experience with Drupal 8 or higher preferred, but not required.
- Experience using git VCS, automated testing, and good documentation processes in a collaborative software development setting.
- Experience in using build automation tools, shell scripting, container-based virtualization and orchestration, CD/CI workflows.
- Experience with lift-and-shift as well as cloud-native web application implementations. Hands-on, demonstrable experience with AWS resources in particular preferred.
- Ability to code, test, and debug software applications; provide ongoing project leadership to technical development staff; analyze problems and propose effective solution; understand functional and procedural requirements and develop alternative solutions; relate system solutions to departmental management and staff.
- Communicate effectively both orally and in writing; develop and make presentations; conduct meetings; develop and provide user training; and establish and maintain effective working relationships with others.

Pay, Benefits, & Work Schedule

The university offers an excellent benefits package, including but not limited to; medical, dental, vision, retirement & savings, tuition waiver and more.

The salary range for this classification is: \$6,249 - \$12,100 per month.

The anticipated HIRING RANGE: \$6,249 - \$9,100 dependent upon qualifications and experience.

HOURS: Full-Time; 40 hours per week; Monday through Friday; may include evening and weekends

REG: This is a Regular position with a one-year probationary period.

General Information

A background check (including a criminal records check) must be completed satisfactorily before any candidate can be offered a position with the CSU. Failure to satisfactorily complete the background check may affect the application status of applicants or continued employment of current CSU employees who apply for the position.

How to Apply

Candidates should apply by completing the CSUN on-line application utilizing http://bit.ly/HR_CSUN link and must attach a cover letter that addresses the qualifications above and a current resume, including names of three professional references. NOTE: Internal candidates should apply through the portal by accessing the View Job Openings/Apply link on the Human Resources/Employee pagelet.

Initial review begins August 19, 2021 and will be considered in the initial review and review will continue until position is filled.
