

# Master of Arts in **LINGUISTICS**

## **Application deadlines:**

Fall admission: July 1  
Spring admission: Nov. 1

Linguistics is the study of human language, including the nature of language, its relationship to human thought, how children develop a language and acquire additional ones, how human beings use language in their lives, and the ways in which languages differ from one another.

Candidates completing the program will have a fundamental and advanced understanding of the core areas in linguistics.

## Required Core Courses Include:

Syntax  
Semantics and Pragmatics  
Phonetics and Phonology  
Cognitive Linguistics  
Language Development  
Sociolinguistics  
Research Methods
