

RT Clinical Objectives: General

In an attempt to demonstrate the scope of learning that has occurred in the clinical area, each student is responsible for the satisfactory completion of the following:

Critical Elements	No	Yes
Identify the control panel:		
kVp		
mAs		
Focal spot		
Exposure switch		
On/ off switch		
AEC On/off switch and cell selection		
Identify tube:		
Anode		
Cathode		
Identify the accessories:		
Table bucky		
Wall bucky if applicable		
Detent		
Collimating devices (PBL), upright film holder		
Immobilizers		
Knows location of shielding		
Knows location of crash cart		
Knows location of fire extinguishers		
Knows hospital codes		
Knows 2 patient identifiers		
Knows the procedure in obtaining in ID # for a "John Doe" or (unconscious) patient		
Knows language for geriatric/pediatric patients		
Parameters for diagnostic acceptability:		
kVp range		
mAs range		
Focal spot size		
Central ray location		
Hospital protocol for procedure		
Positioning:		
Correct centering		
Correct views		
Correct use of markers		
S-value range		
"Tricks of the trade"		
Evenings:		
Know proper security measures for evening personnel when leaving		
Know contacts for after hour emergencies (supervisor or lead)
