Approval Signatures to enroll in Comp 696/698:

 Committee Chair Date Graduate Coordinator Date

Part II: for COMP 499C Classes

Part II instructions: Obtain approval signatures from COMP 499C instructor and department chair in that order.

Is this 499C course to be used in your Concentrated Studies Package? YES NO

Independent study activities must be unique in content, not duplicate the contents of an existing course, and must present original research or contain a strong software design / implementation component. Attach a copy of your proposal to this form for review. A full-time member of the computer science faculty must be the COMP 499C sponsor and both the sponsor and the department chair must approve the proposal.

If a request is being made for inclusion in your Concentrated Studies Package, an extensive final report must be submitted in printed form to both the 499C instructor and the department chair upon the conclusion of the activity. The 499C instructor determines the final grade for the activity but both the 499C instructor and the department chair must concur on the merit of the completed activity before credit will be assigned towards meeting Concentrated Studies Package requirements.
