**S.T.O.P. Registration Form**

The S.T.O.P. program is a theft-deterrent and recovery program that will increase the chances of your property being returned to you if lost/stolen and subsequently recovered. The unique serial number of the security plate, along with your contact information and equipment serial number, is registered in a national database. **The S.T.O.P. security plate is good for the life of the equipment, even after you have left CSUN.**
