

U100 BLACK EXCELLENCE FRESHMAN SEMINAR

"This class gives you the opportunity to gain a better understanding of yourself. What your strengths and weaknesses are, and what power you hold not only as an individual, but as a Black student. Taking this class has been one of the greatest decisions I have made in college, and I have no doubt it would be yours too."

"It is important to take the class in the Black Excellence cohort as you see other successful Black people and where you could be if you take advantage of the opportunities college provides for you."

"Without this class I wouldn't have known that there were as many other Black students, organizations, or clubs offered here that I could feel a part of. This cohort proves you belong here just as much as anyone else."

"If you are someone who is hungry for success, this class is for you. You will have a place to feel accepted and at home in this class as a person of color."
