

MATH 411, Spring 2001

Homework 3

Due: 15, March, 2001

R. Redheffer, *Differential Equations*:

[7.3]: 3(a). Hint:  $g = 32$  feet per second per second, one inch is  $1/12$  foot;

[7.4]: 8, 9;

[12.1]: 3(a,d,f,g), 7[b,c];

All problems are estimated by 20 points.
