Subject: Distinguished Teaching Nomination

Dear Dr. Debose,

I am happy to announce that I am now a college graduate. With that being said; I have to take a moment to acknowledge the teacher that helped me reach my full potential.

Professor Jerry Schutte made such an impact on my studies and growth as a person. He, through his own way of encouragement showed me just how powerful believing in someone can be. He taught me to research and dig deeper before accepting the black and white as my truth.

I use these tools in raising my son and in my career as I strongly believe in progression. I question those around me and seek knowledge in any form deliverable. His class was not easy but it was well worth the challenge. Please consider him for the distinguished teacher nomination.

P.S. Just to put a face with this email; I am the student that works with Diane Berk and Jack Miller at Zenith Insurance. The one that visited your office several times over the past few years full of doubt. (I did it!)
