TEACHERS FOR A NEW ERA

In 2002 and 2003, four and seven universities and Colleges, respectively, were designated “Teachers for a New Era” (TNE) institutions by the Carnegie Corporation of New York and funded to work on their teacher preparation programs

2002	2003
Bank Street College of Education	Boston College
California State University Northridge	Florida A & M University
Michigan State University	Stanford University
University of Virginia	University of Connecticut
	University of Texas El Paso
	University of Washington
	University of Wisconsin-Milwaukee

## TNE follows three principles:

### 1. Decisions driven by evidence;

improving preparation programs, teaching strategies, and teacher support on the basis of valid and reliable evidence mainly of pupil learning

### 2. Engagement with the Arts and Sciences;

making teacher preparation--and pupil learning--everyone's responsibility because teacher candidates must learn not just subject matter but how to make subject matter teachable

### 3. Teaching as an academically taught clinical practice;

insuring that P-12 setting and the university curriculum align and indeed overlap so that theory and practice reinforce one another
